

HUNT MINING ANNOUNCES PRICING CHANGE - NON-BROKERED PRIVATE PLACEMENT OFFERING

Liberty Lake, Washington, July 2, 2015 – Hunt Mining Corp. (the “Corporation”) (TSX VENTURE: “HMX”) announces a change in the pricing of the non-brokered private placement offering for new capital to accredited investors, due to market changes since the previous announcement on June 11, 2015.

Private Placement

The Corporation has arranged a non-brokered private placement offering for new capital. The non-brokered private placement intends to raise maximum aggregate gross proceeds of up to \$1,125,000.

It is expected the majority of the proceeds will be subscribed for by related parties to the corporation; however, the private placement is being offered to all current shareholders who had expressed an interest. The private placement is not expected to result in the creation of any new control persons or a change of control. The non-brokered private placement will consist of up to 22,500,000 million units at \$0.05 per unit, consisting of one common share and one common share purchase warrant. Each share purchase warrant will entitle the holder to purchase one common share at a price of \$0.075, exercisable for a period of five years from closing. The proceeds will be used to fund existing exploration activities in Santa Cruz, Argentina and for general working capital purposes. All securities issued under the private placement will be subject to a four-month hold period from the day of closing, and are subject to TSX-V review and acceptance.
